Climate Protection Certificate

We hereby confirm the contribution of the company

PEMA Verpackung GmbH
towards saving greenhouse gases
in 2021.

By recycling the paper sacks of your customers, REPASACK achieved savings of 2,639.95 kilogram of greenhouse gases in 2021.*

This corresponds to the average CO₂ emissions of a car that has covered 22,184.41 kilometres.**

In addition to this, 45,441.68 kilogram of resources* were saved.

We would like to thank you on behalf of environmental and climate protection.

Marius Müller-Drexel
Managing Director of Interzero Repasack GmbH

ppa. Sven Korsten
Site Manager of Interzero Repasack GmbH
